WELCOME TO OUR OFFICE
SINUS QUESTIONNAIRE

We pride ourselves in the efficiency of our office. If you provide all of the information below, we are able to serve you better in filing of your insurance and your medical care.

PLEASE DO NOT LEAVE ANYTHING BLANK. Thank you.

How many sinus infections do you normally have in a year?

What symptoms do you normally have when you have an infection? (Mark all that apply)

- Headaches
- Facial pain or pressure
- Clear nasal drainage
- Yellow/green nasal drainage
- Nasal congestion
- Loss of smell/taste
- Foul smell in nose
- History of nasal polyps

Please check all antibiotics that you have taken for a sinus infection in the last year and the length of time you have taken them.

- Amoxicillin 5 days
- Augmentin 7 days
- Avelox 10 days
- Bactrim 14 days
- Biaxin 21 days
- Ceclor
- Ceftin
- Cefzil
- Clindamycin
- Doxycycline
- Levaquin
- Omnicef
- Zithromax
